

## WSDOT Construction Update for Snohomish County Highways

*Edition 25, June 9, 2006*

### In this issue:

- I-5 Broadway exit in Everett switches from left to right in late June; tell your friends to exit right
- WSDOT urges Stanwood Park and Ride commuters to leave early for their trips

### I-5 Broadway exit in Everett switches from left to right; tell your friends to exit right

Very soon you will have to take a right when exiting I-5 at Broadway Avenue to get to downtown Everett. Weather permitting; crews will close the left-hand exit at Broadway (exit 192) on Tuesday, June 27. The new right-hand exit is located approximately ¼ mile before the old left-hand exit.

This is a big change for drivers, especially those who have taken the left-hand exit for the last 38 years since its 1968 opening. We need drivers' help to keep everyone safe and avoid accidents. Please remind your friends and family to exit right, not left, at Broadway.

This is just one part of the \$260 million [I-5 Everett Freeway Expansion project](#) scheduled to be complete in June 2008. The left-hand exit will be modified, lowered and reopened by 2008 as a northbound exit-only and southbound entrance-only for carpools, vanpools and buses, improving HOV access and travel times.

### WSDOT urges Stanwood Park and Ride commuters to leave early for their trips

WSDOT began a project on June 5 to make [improvements](#) to the I-5/State Route 532 interchange and Old Highway 99. Throughout the project, Stanwood Park and Ride users can expect [reduced parking availability](#) as well as construction delays in the area. Please plan for extra driving time and consider [parking alternatives](#).
